

The Bishop's Leadership Council (BLC) provides St. Luke's Episcopal Health Charities (the Charities) with long-term support of its mission and operations and broad-based advocacy for the healing ministry of the Episcopal Diocese of Texas. Expanding BLC membership extends the reach of the Charities endowment through an annual giving program of individual pledges for a five-year period. The earnings are collectively applied to the highest priorities affirmed by voting BLC Council members annually.

- **building on the Charities legacy and contributions since 1997.**
- **meeting the needs and challenges of the underserved, making the Charities more responsive to the community.**
- **investing in and maintaining web-based resources for the underserved, such as Project Safety Net and the Breast Health Portal.**

We encourage you to join us in making a difference in the lives of the underserved in our community. Through research and grantmaking, we have touched the lives of approximately 14 million people since our inception in 1997. For more information, please contact **Patricia Gail Bray** at **832.355.8919** or visit our Web site at **www.slehc.org**.
